

# WEEK 11 – WEEKLY MATHS CHALLENGE

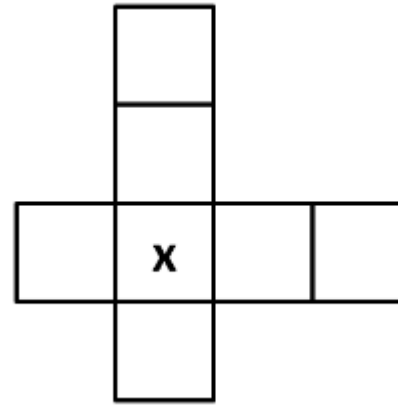

@sthildasmaths

StHildasMaths

The numbers 2, 3, 4, 5, 6, 7 and 8 are to be placed, one in each square, such that the four numbers in the horizontal row and the vertical column add to 21.

Which number should replace x?

## KEY TERMS OF THE WEEK

**Factorising:** putting algebraic expressions into brackets

**Expanding:** multiplying out brackets; the inverse of factorising.

Submit your answers on a piece of paper with your name and form on by the END OF FRIDAY to the box

by **student services**.

Winner revealed next Wednesday!

*Mr. Martin's Fun Number Fact:*

*"So far this Premier League season, Liverpool have scored  $2^5$  goals, whereas Everton have scored a lowly  $2^4$  goals. YNWA."*

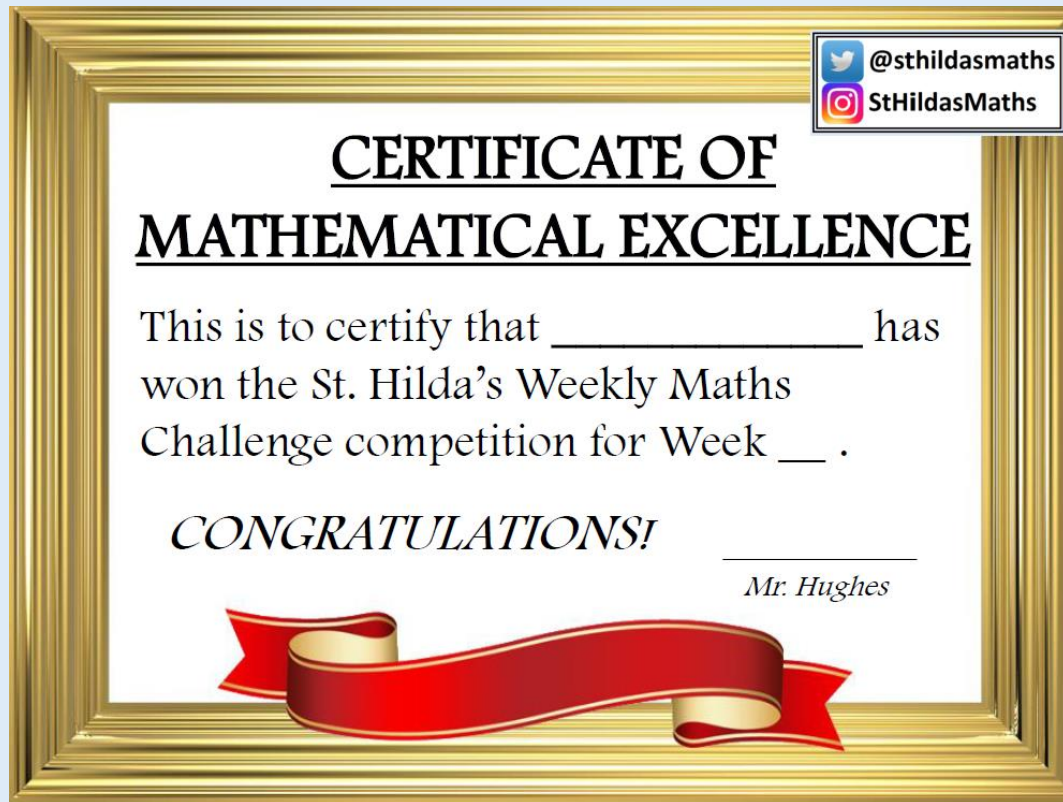

# WEEK 10 – Staff WINNER!

@sthildasmaths

StHildasMaths

Teachers **also** get a  
certificate when they win.  
See if you can find which  
teacher has won **Week 10**  
by finding their certificate  
on their door!
