

WEEK 12 – WEEKLY MATHS CHALLENGE

@sthildasmaths

StHildasMaths

The English mathematician Augustus de Morgan, who died in 1871, claimed that he became x years old in the x^2 year.

In what year was he born?

KEY TERMS OF THE WEEK

Multiplier: a number you multiply by to find percentage

increase/decrease (e.g. $\times 1.1 = 10\%$ increase; $\times 0.8 = 20\%$ decrease)

Submit your answers on a piece of paper with your name and form on by the END OF FRIDAY to the box

by **student services.**

Winner revealed next Wednesday!

Some bloke off the telly asks:

“If a meal for two costs £95 and I leave a 15% tip, how much was the whole meal?”
